DOMINO DOUBLES ADDITION TO 20

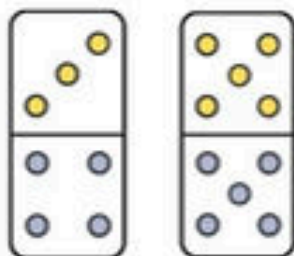

Count the dots and write the number.

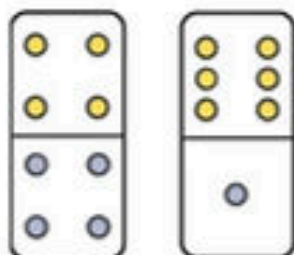

$$\square + \square + \square + \square = \square$$

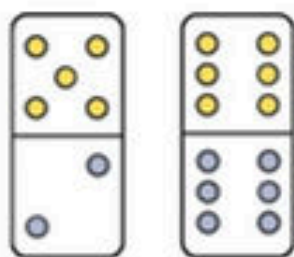

$$\square + \square + \square + \square = \square$$

$$\square + \square + \square + \square = \square$$

$$\square + \square + \square + \square = \square$$

$$\square + \square + \square + \square = \square$$

Dots

Dots is a fun game where each player takes a turn connecting one dot to another adjacent dot either horizontally or vertically. Each player takes one move at a time drawing a line. Eventually the board starts to fill with lines. Some will be connected and some not. When you can add a final line to form a square, fill in the box with your initial and take another turn. The objective is to have the most boxes with your initials.
